

WHITLEY COUNTY CONSOLIDATED SCHOOLS
ENERGY STAR School District

When the master facility plan was first envisioned as early as 1990, the school corporation placed a stake in the ground to significantly reduce operating costs and create an optimal learning environment for students and staff. Whitley Schools looked to ENERGY STAR as one of several performance benchmarks because of the rigorous energy efficiency and learning environment national standards. Performance Services was selected to renovate the mechanical systems and work with the facilities staff to help achieve the result.

“Whitley County Consolidated Schools is extremely proud of receiving the EPA’s ENERGY STAR award designation for five of our six school buildings. Providing a quality learning environment for all students is a goal of our school corporation and we have worked very hard towards that end. School dollars are continuing to shrink rapidly, and we like everyone else, strive to spend less dollars on utilities and more dollars in the classroom. Our partnership with Performance Services has allowed us to do just that.”

-- Anthony G. Zickgraf, Director of Business and Operations

RESULTS

- \$433,723 in actual energy savings in a three-year period

ENERGY STAR SCHOOLS (5 OF 6 DISTRICT SCHOOL BUILDINGS)

- Coesse Elementary - 2009
- Indian Springs Middle School - 2008
- Little Turtle Elementary - 2009
- Northern Heights Elementary - 2009
- Mary Raber Elementary - 2009
